

GForce Mist Sprayers & Mist Blowers

3-Point Models

4 Tank Sizes

40, 60, 100, & 150 gal. poly tanks

2 Fan Sizes

12" w/ 15" housing - Heavy Duty (hd)

15" w/ 18" housing - High Performance (HP)

GForce hd (heavy duty) 12" fan sprayer - 15.5" housing

GForce HP (High Performance) 15" fan sprayer - 18" housing

GForce fans (class III) include safety rings notched in place to remain on the fan blades during hard use. A first now being produced by others.

Our 12" fan units produce 145+ mph winds - 15.5" housing

Our 15" fan units produce 160+ mph winds - 18" housing

These two wind speeds produce a spray coverage from 140'+- ft horizontal to 85' vertical and 180'+- ft horizontal to 120' vertical. The best in the industry (distance can depend on wind conditions).

GForce mist sprayers provide the operator a "Spray Control Center" unlike any other mist sprayer. This provides easy access to all necessary controls in one place - out of harms way.

Our fans are belt driven with the 3vx triple coggged V-belt for very dependable service.

GForce standard discharge tubes are galvanized steel and Raptor coated inside and out for all chemical protection to be used with a mist sprayer. Poly versions available.

Winterize your GForce with our exclusive winterizing air-valve to blow out the liquid hoses and nozzle/tips. All winterized and safe from freezing, ready to use again and again.

GForce delivers uniform spray with no dead spots, as tested with our digital air speed indicator, to deliver the most efficient chemical application.

Spray insecticides, fungicides, herbicides and foliar feed with a fraction of the water volume needed with boom sprayers.

Go where boom sprayers can't go...

GForce can spray your roughest tough spots such as ravines/ditches, fence lines, terraces, trees/brush areas and wet or steep sites.

GForce will spray your livestock and around hog/poultry building areas.

Cover either side with our 210 degree rotation. Hydraulic or 12 volt actuator activation of the rotation. Adjust at any level to spray at any height.

GForce will enable you to create spray barriers for biting insects, grasshoppers and other pesky bugs.

Protect your livestock and feedlots from pests.
Protect your produce acres/truck farming crops.
Create pest barriers.
Foliar feed your various specialty crops.

GForce can be used for most of your spraying needs when the conditions demand.

Cover the areas not capable with other sprayers as your needs arise. GForce is a specialty sprayer that can do most all types of spraying when necessary.

Gov't entities can use the GForce on public properties for mosquito and other insect and pest control. City and counties control mosquitoes in parks, golf courses and river areas.

GForce is the highest quality, heavy duty, dependable and most cost efficient mist blower of its type on the market. Ready to tough the terrain.
