

GForce

Mist Sprayers & Mist Blowers

GForce Mist Sprayers & Mist Blowers 3-POINT MODELS FOR TRACTORS

4 Tank Sizes

40, 60, 100, & 150 gal. poly tanks

Fan Size

15" w/ 18" housing - High Performance (HP)

GForce HP (High Performance) 15" fan sprayer - 18" housing

GForce fans (class III) include safety rings notched in place to remain on the fan blades during hard use. A first now being produced by others.

Our 15" fan units produce 160+ mph winds - 18" housing
These two wind speeds produce a spray coverage from 180'+- ft horizontal to 120' vertical. The best in the industry (distance can depend on wind conditions).

GForce mist sprayers provide the operator a "Safety Spray Control Center" unlike any other mist sprayer. This provides easy access to all necessary controls in one place - out of harms way. Now being copied by the competition.

Our fan is belt driven with the 3vx triple cogged V-belt for very dependable service.

GForce standard discharged tubes are galvanized steel and Raptor coated inside and out for all chemical protection to be used with a mist sprayer.

Winterize your GForce with our exclusive winterizing air-valve to blow out the liquid hoses and nozzle/tips.

GForce delivers uniform spray with no dead spots, as tested with our digital air speed indicator, to deliver the most efficient chemical application.

Spray insecticides, fungicides, herbicides and foliar feed with a fraction of the water volume needed with boom sprayers.

Go where boom sprayers can't go...

GForce can spray your roughest tough spots such as ravines/ditches, fence lines, terraces, trees/brush areas and wet or steep sites.

GForce will spray your livestock and around hog/poultry building areas.

Cover either side with our 210 degree rotation.
Hydraulic or 12 volt actuator activation of the rotation.
Adjust at any level to spray at any height.

GForce will enable you to create spray barriers for biting insects, grasshoppers and other pesky bugs.

Protect your livestock and feedlots from pests.
Protect your produce acres/truck farming crops.
Create pest barriers.
Foliar feed your various specialty crops.
Assist with COVID-19 sanitation.

Cities and counties control mosquitoes in parks, golf courses and river areas.

GForce is the highest quality, heavy duty, dependable and most cost efficient mist blower of its type on the market. Ready to tackle the tough terrain.

STANDARD High Performance Units

GForce unit 15" fan HD with 18" housing
 Safety Spray Control Center
 Electric on/off control box
 Dual glycerin filled pressure gauge system
 Dual jet agitation in all tanks
 3-way drain valve
 Hypro 6 roller pump (smooth, quiet, high quality)
 540 PTO shaft with chain hanger
 Fork lift capable from all sides
 Spray wand with 25" hose and hose hanger
 210 degree rotation
 Volute-4 nozzle, galv. steel with Raptor coating in/out
 2 part chemical resistant urethane paint
 Easy-fill poly tanks with galv. straps
 2x8 hyd. cylinder for 210 degree rotation (no hyd hoses included)
 Winterizing valve system (no more frozen pumps)
 Heavy duty steel construction

OPTIONS AVAILABLE

40, 60, 100 & 150 GALLON TANKS
 GForce HP (High Performance, 15" fan with 18" housing)
 12 volt Accuator rotation in lieu of hydraulic cylinder

GForce HP (High Performance) 15" fan sprayer - 18" housing
 535# varies with tank size

Safety Spray Control Center - all controls out of harms way.

Production/Assembly line

Testing for wind speed & any dead spots. None.

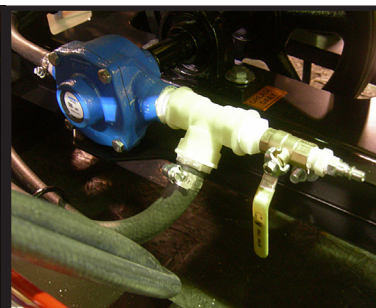

Air speed indicator testing during development.

Spray wand with 25' hose is standard equipment.

PTO Shaft Chain Hanger (when not in use) is standard equipment.

Winterizing air valve system is standard equipment.

Dual jet agitation is standard equipment.
