

## GForce Mist Sprayers for UTV's ENGINE DRIVEN SKID MODELS

### Tyrant 15, 25, AND 40 GALLON

#### Built with You in Mind

GForce fans (class III) includes Heavy Duty greaseable bearings and safety rings notched in place to remain on the fan blades during hard use. A first now being produced by others. Air speeds of 100+ mph.

GForce mist sprayers provide the operator with safety spray control. This provides easy access to all necessary controls out of harms way.

Our fans are belt driven for very dependable service.

GForce standard discharge tubes are poly on galvanized steel and Raptor coated inside and out for chemical protection.

GForce delivers uniform spray with no dead spots, as tested with our digital air speed indicator, to deliver the most efficient chemical application.

GForce standard rectangular discharge tube sprays both directions. Easily rotates 210°.

Spray insecticides, fungicides, herbicides and foliar feed with a fraction of the water volume needed with boom sprayers.

#### Go where Boom Sprayers Can't Go

GForce can spray your roughest tough spots such as ravines/ditches, fence lines, terraces, trees/brush areas and wet or steep sites.

GForce will spray your livestock and around hog/poultry building areas.

GForce will enable you to create spray barriers for biting insects, grasshoppers and other pesky bugs.

Protect your livestock and feedlots from pests.  
Protect your produce acres/truck farming crops.  
Create pest barriers.  
Foliar feed your various specialty crops.

Gov't entities can use the GForce on public properties for mosquito and other insect and pest control. GForce can also assist with Covid-19 Control in parks, golf courses, and river areas.

GForce is the highest quality, heavy duty, dependable and most cost efficient mist blower of its type on the market.
